

# Where do you want to grow?

## summit Benefits Debit Cards

DataPath® 

### Benefits Debit Cards

Since 2002, DataPath has been helping TPAs get where they want to grow with account-linked benefits debit cards. Add a card to plans including health and dependent care FSAs, HRAs, HSAs, Transit/Commuter accounts, Lifestyle Spending Accounts, and more. Our all-in-one payment solutions cut down on benefits fraud while enabling TPAs to be competitive and reduce claims processing. Plus, cards are proven to increase plan enrollment, promote higher client satisfaction, and give participants instant access to their benefit dollars.

DataPath's proprietary benefits debit cards can link to any account-based employer benefit package and offer a stacked benefit environment that allows multiple plans on a single payment solution. Through the Summit portal, TPAs can set up plan order logic so that the cards know which account to charge the card transaction against first.

Our benefits debit cards use DataPath's completely integrated, single-vendor platform for card issuance and authorization logic. We are an end-to-end card processor, and every related function stays in house, backed by market-leading customer service and technical support.

### Benefits for TPAs

- ◆ Create, issue, and administer debit cards
- ◆ Customize the card with your logo and brand
- ◆ Increase auto-substantiation rates
- ◆ Boost life count through increased adoption rates within existing groups
- ◆ Prevent benefit fraud with MCC restrictions and IAS integration

### Benefits for Employers

- ◆ Increase participation in group plans
- ◆ Increase employee contributions to tax-advantaged accounts and associated employer FICA savings
- ◆ Give employees instant access to plan dollars

### Benefits for Employees

- ◆ Get instant reimbursement for goods and services at the point of sale
- ◆ Reduce the need to submit paper claims for expenses
- ◆ View balances, upload receipts, and submit claims via mobile app

**Where do you want to grow? DataPath debit cards can help you get there.**
